Billing Guidelines for Wellness Exams

Preferred Family Medicine makes every effort to be fully compliant with Federal, State and Insurance regulations. Due to stricter guidelines, effective immediately, all wellness/physical exams **must** be billed as **WELL VISITS**, regardless of any other diagnosis you may have. Many insurance companies, including Medicare, do not cover well visits. The cost of the examination and any related testing may be your responsibility. These prices do not include testing or immunizations, which are billed separately and ordered on an individual basis. Lab tests may be sent to an independent laboratory, which may bill you separately.

Current Fee Schedule:

Comprehensive Wellness Exam	**$170.00 - $200.00**
Pap Smear Well Physical Exam	**$150.00 - $200.00**

Please note many insurance carriers do not pay for Yearly Pap Smear visits.
We will bill your insurance carrier for this exam, yet you may be responsible.
