PMG Prescription Authorizations Policy Amended January 2008

We must remember that you the patient, or your employer, has chosen your insurer-NOT PMG. These insurers have rules regarding **prescription medication coverage** and we must follow these rules.

In most situations, patients must **PRIVATE PAY** for medicines **NOT** on their list of approved medications.

PMG must therefore deny most requests from patients for pre-authorizations-it is the insurer not our office that has restricted them.
